

Values Identification TF Meeting #3 7.21.21 3:30pm
Agenda

Members: **Kassie Larson, Heather Krisko, Emily Graveen, Teresa Ward, Peter Vang Dean (all present)**

Value Identification Task Force

Goal: To identify the values that the MSA Community believes are important in a director and to use that information to guide the hiring process.

This task force will create a survey for all members of the MSA Community (parents, students, staff and teachers) to identify the values and skills that we believe are crucial in hiring a new director. The survey should be completed by September 1, be sent to the community, and the results be collected by September 15. The taskforce will send recommendations broken down by group to the Hiring Committee, so that they can create a process that reflects these values.

Time Commitment: This task force will mostly meet over the summer for monthly meetings. There may be more frequent meetings in September. Members will be asked to complete work between meetings. This work should be completed by October.

Agenda

1. Update on Survey Timeline: **We will move ahead as stated above. Students will receive the survey during the first advisory, September 10th**
2. Create Survey Questions
**The committee worked together to write questions in the proper format for ease of response of survey takers.
Heather will take the questions/statements formulated today and put them into a Google form for our next meeting.**

Next Meeting: **August 18th, 3:30-4:30 PM**
