[Note: A school board must formally adopt a policy authorizing rewards for information leading to the conviction of the person committing or conspiring to commit the specified crimes before a reward may be offered.]

907 REWARDS

I. PURPOSE

The purpose of this policy is to authorize the Math and Science Academy Board of Directors (BOD) to offer rewards to persons who provide accurate and reliable information leading to the conviction of a person who has committed or conspired to commit a crime against students or school employees, volunteers, or BOD members as a result of their affiliation with the Math and Science Academy (MSA) or against MSA property.

II. GENERAL STATEMENT OF POLICY

The BOD believes that, in certain circumstances, the offering of a reward may lead to the receipt of information that would solve or prevent a crime against students, school employees, volunteers, BOD members, or school property. The BOD also believes that the fact that the BOD may offer a reward may have a deterrent effect on the commission of such crimes.

III. APPROVAL OF OFFERING OF REWARDS

The BOD shall approve the offering of any rewards by the school. The approval shall specify the amount of the reward and the crime to which it is applicable. The approval may relate to a specific incident or to a continuing category of crime, i.e., assault of a teacher, damage to school property, etc.

IV. ESTABLISHMENT OF PROCEDURES

The MSA Director shall develop directives and procedures to address the timing and method of payment of any reward earned by an information provider. The information provided must have led to the conviction of the person who committed or conspired to commit the crime for which the reward was offered.
