

# POST-SECONDARY ENROLLMENT OPTIONS (PSEO) CONTRACT

Student Name: \_\_\_\_\_ Grade: \_\_\_\_\_ Date: \_\_\_\_\_

PSEO institution(s): \_\_\_\_\_ PT or FT

- Every PSEO institution has its own application process and criteria for admitting students for PSEO. Each PSEO institution has different deadlines, start dates, and breaks. According to Minnesota statute, students must notify their High School by **May 30th** if they plan to attend PSEO the following year.
  - Popular PSEO Institutions and their fall application deadlines:
    - Century College & Inver Hills Community College → July 1st
    - University of Minnesota, Twin Cities → April 6th
    - Concordia University → May 15th
    - Saint Paul College → Priority deadline: May 15th; Final deadline: June 15th
- It is important that the student and parent are made aware of all of the factors involved when participating in college classes, and the impact that PSEO can have on both the student and their academics.
- Understand that scheduling conflicts may occur for part-time PSEO students.
- PSEO is considered concurrent enrollment. This means that the student's grades that are received in their PSEO courses are reflected on their high school transcript as well. It is the student's responsibility to ensure final semester grades are received by MSA.
- Students are responsible for providing MSA their PSEO schedules prior to the first day of school and before second semester begins.
- It is the student's responsibility to submit an MDE PSEO form each semester they participate in PSEO. If the MDE form is not turned in to the PSEO institution, you may receive a bill from the PSEO institution.
- Please refer to each institution's PSEO website for additional information regarding their PSEO programs, application requirements and deadlines.
- Please refer to the MSA course equivalencies to ensure you are taking the appropriate courses to meet MSA graduation requirements (if applicable). If you are questioning a course requirement, you must contact Mrs. Graveen to receive course approval. This may include communicating with the MSA teacher that teaches the equivalent course or providing a PSEO course syllabus.
